

# Harsh Arora

## B.TECH CSE STUDENT

Address: Ratlam MP

Email: arora1harsh@gmail.com

LinkedIn: <https://www.linkedin.com/in/harsh-arora-12ba55285/>

## CAREER OBJECTIVE

Motivated Computer Science undergraduate seeking internship and placement opportunities to apply strong fundamentals in software development, problem-solving, and front-end technologies while continuously learning and contributing to impactful projects.

## EDUCATION

### SOE JNU

*Bachelor of Technology, expected 2027*

Computer Science Engineering

CGPA: 6.5/9

## TECHNICAL SKILLS

### Programming Languages:

Python, Java, C, C++

### Web and Development tools:

React, Tailwind CSS, HTML, CSS, GitHub, VS Code

### Design & UI/UX:

Figma (Wireframing, UI design)

### Core Computer Science Subjects:

Computer Networks, Operating Systems, DBMS, Data Structures & Algorithms, Object-Oriented Programming, Software Engineering, Compiler Design, Design & Analysis of Algorithms, Cyber Threats, Machine Learning

## PROJECTS

### Web Development Projects

Designed and developed responsive front-end applications using React and Tailwind CSS, focusing on clean UI, component-based architecture, and performance optimization.

### UI/UX Design Projects

Created user-centric interface designs and prototypes using Figma, emphasizing usability, accessibility, and modern design principles.

### Academic Assignments & Mini Projects

Implemented problem-solving solutions and algorithms using C, C++, Python, and Java as part of coursework in DSA, OS, CN, and DBMS.

## ADDITIONAL INFORMATION

- Familiar with version control workflows using GitHub
- Strong interest in front-end development and system-level concepts
- Continuous learner with a focus on improving coding and design skills
